PowerEdge? 2650

The PowerEdge™ 2650 delivers a combination of performance, availability and configuration flexibility that makes it ideal for a variety of front end server workloads. It is an affordable, ultra-slim-line (2U) full-featured rack system ideal for multi-server rack environments. This server is designed to meet the needs of ISPs, corporate data centers and remote sites that require a dense, easily racked, single or dual processor server that offers high levels of performance and bandwidth.
